INSTALLATION TIPS

- The manufacturer suggests using a locally licensed plumber for installation.
- Do not use PEX for tub spout drop.
- If you use soldering for the installation of the faucet, the seats, cartridges and washers will have to be removed before using flame. Otherwise, warranty will be void on those parts.

CONSIGNES DE INSTALLATION

- Le fabricant suggère de confier l'installation à un plombier qualifié pour exercer dans cette région.
- N'utilisez PEX pour raccorder le bec.
- Si vous posez le robinet par brasage, il est essentiel de retirer les sièges, les cartouches et les rondelles avant d'appliquer la flamme, faute de quoi la garantie sur ces pièces sera annulée.

BLACK TO BACK INSTALLATION

1. Remove the screw, the plaster guard, the threaded sleeve and the plug.

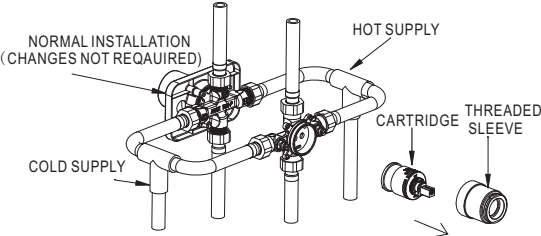

2. Remove the joints and screws from the normally installed cartridge, then rotate the cartridge 180 degrees so that the B-B side faces upward before reinstalling. Ensure that the joint is securely locked with a screw.

3. Install the modified cartridge onto the body, ensuring that the B-B orientation is facing upwards. Secure the cartridge in place using the cartridge locking sleeve.
